## FOUGHT LIKE DEMONS

Did Rebels When They Found Themselves Entrapped.

### WHEATON'S STRATEGY WINS

A Well-Planned Advance Made Upon the Dense Jungles, the Enemy Cooped Up and Routed With Considerable Loss.

Manilla, March 20.—Some of the rebels recently expelled from Cavite and the small towns in the vicinity of Pasig combined forces and, under cover of night, attacked a company of Washington volunteers, a detached post at Taguig, about a mile and a half south-east of Pasig.

General Wheaton immediately reinforced the Americans with two companies each of the Washington and the Oregon regiments. The post had held the enemy in check, and the fire of the reinforcing companies repulsed them, driving them across to an island formed by the estuary. They were thus in front of the Twenty-second regulars.

On discovering that they were entrapped the rebels fought desperately, aided materially by the jungle and the darkness, but they were completely routed, with heavy loss, after two hours of fighting. The Americans lost two killed and 20 wounded, among the latter Lieutenant Frank Jones.

General Wheaton determined to punish the natives, and at daybreak his brigade started in the following order: The Sixth artillery, holding the extreme right; the Oregon volunteers heading the center; the Washington regiment keeping to the edge of the lake, and the Twenty-second regulars occupying the right of the line, which swept the whole country along the lake, in a southeasterly direction, toward General Owenshine's position. The line, thus extended over two miles of country, rough and covered with thick jungle, advanced 11 miles. The enemy fled. At scarcely any time did the Americans get within 1,200 yards of them.

The troops returned to Pasig exhausted by the hard work under a hot sun. The Oregon regiment had one man killed and four wounded, and the Twenty-second regulars one wounded. According to the official reports no fewer than 200 Filipinos were killed.

General Otis says the American army and gunboats now command the lake. He estimates that property of the insurgents valued at \$500,000 has been destroyed, while quantities of rice and sugar and 400,000 tons of coal, which is very valuable here, has been captured.

Many prisoners represent that the Filipino soldiers are weakening. The generous treatment that the Americans administer to the native prisoners and wounded seems to influence the insurgent army powerfully. In the opinion of the Americans, however, the Filipino leaders will continue to provoke fighting just as long as they can retain their hold upon their followers, because they have everything to gain and nothing to lose. The enemy have twice as many men on their firing lines as they have arms, and the fact that so few arms are captured by the Americans is because the guns of the wounded Filipinos and many of those who surrender are spirited away.

The armed tugs Laguna de Bay and Oeste have returned to San Pedro Macati and reported the results of their tour of the lake. On Friday they shelled the town of Moreng, the rebels fleeing without making any response to the fire. The Americans landed a party, which destroyed a quantity of stores and all the stone buildings, except the church. The expedition then proceeded to Majajay, where a sugar mill and saw mill were destroyed.

On arriving at Santa Cruz, a town of 1,200 inhabitants, it was found that the enemy was strongly entrenched and prepared to defend the position, assisted by two gunboats and several launches. Moreover, the mouth of the river was blocked with rocks and bamboo. A few shells caused an exodus of the citizens, but not of the enemy's troops. The Americans did not attempt a landing. Captain Grant, who is in charge of the expedition, asks for reinforcements and will probably take Santa Cruz soon.

The United States distilling ship Iris, which left Honolulu for Manilla with the United States battleship Oregon, arrived here.

#### Official From Otis.

Washington, March 20.—The war department received the following dispatch from Major General Otis regarding operations against the insurgents: "Our improvised gunboats under Captain Grant, Utah artillery, have full possession of Laguna de Bay. Troops, inhabitants and property on shore of lake at our mercy. Wheaton's brigade on Pasig river line drove en-

emy northeast into province Morong. Enemy attacked portion of his force south of Pasig, killing two men and wounding 20 of the Twenty-second infantry. At daylight Wheaton moved against this insurgent force, driving it to the south 15 miles, experiencing very slight loss. Enemy left 200 dead on field."

### CRAWLING MAGGOTS

Found In Canned Beef According to Testimony of a Witness.

Kansas City, March 20.—The beef court of inquiry resumed the taking of testimony at its headquarters in the Midland hotel. L. A. Raabo, who formerly worked in the canning department at Armour's and who had previously testified that at one time as high as 30 per cent of canned meat had been rejected after being prepared by his firm, was recalled. He said that while he was employed in that department two car loads of spoiled canned beef were returned from the army. When the cans were opened many of the cans were found bursted and maggots were crawling everywhere.

#### Meat Chemically Treated.

Leavenworth, Kan., March 20.—The army beef court of inquiry concluded the taking of testimony here and departed for Chicago. The sole witness examined was Sergeant Edward Mason, troop F, First United States cavalry, who served as regimental commissary sergeant during the Cuban campaign. The witness declared that meat received for use in his regiment was "undoubtedly chemically treated." "An agent of Armour & Company," he further testified, "told me at the time that this meat had been treated with what was called preservaline." Witness had refused to accept the meat.

#### Extra Pay For Sailors.

Washington, March 20.—The navy department wishes it known to all the volunteer sailors who served with such credit during the late war, and received honorable discharges, that it need not cost them more than the price of a 2-cent postage stamp to secure the gratuity in the shape of extra pay, which congress allotted to them in the closing hours of the last session. Very many applications have been pouring in upon the navigation bureau for information as to how the men should proceed to collect their money. These volunteer sailors are, under the act of congress, entitled to one month's extra pay in case they served within the United States, and two months extra pay, if they were in severe outside the United States. It will be for the auditor to draw this line of inside and outside, but, it is said, at the navigation bureau, that vessels which served in the Cuban and Porto Rican blockade and vessels which went to foreign ports will be regarded as having been outside of the United States.

#### Acreeable Adjustment.

Washington, March 20.—Marquis Romano, the Italian charge d'affaires, received a dispatch from Dr. Cuneo, the Italian consul now at Lake City, Colo., saying a satisfactory adjustment of the disturbance has been reached. The state department had previously requested the governor of Colorado to utilize the offices of Dr. Cuneo, whose post is at Denver. His report states that the Italians assembled, and on his advice submitted to arrest, thus terminating the opportunities for a clash. The consul speaks in high terms of the local authorities and say they expressed satisfaction with the course pursued. He makes no mention of interrupted official dispatches.

#### A Serious Result.

Washington, March 20.—The Spanish government, through the French ambassador, M. Cambon, has presented to the state department a representation as to the condition of the Spanish prisoners held by the Philippine insurgents, setting forth what they consider the serious results arising from General Otis' recent prohibition of efforts by the Spanish authorities to secure the release of the prisoners.

#### Horse on the Track.

Auburn, Cal., March 20.—A west-bound freight train struck a horse, with the result that the first engine of the train was dented and its boiler broken. The engineer and fireman were scalded to death and an unknown helper was badly burned. Killed: Engineer Fred Witham, Fireman Edward Gray.

#### Will Alger Resign?

Brunswick, Ga., March 20.—A rumor current here is to the effect that secretary Alger's resignation has been prepared and that during the current week the president and his advisers now here, will determine whether or not it shall be accepted.

#### Kipling Will Soon Be Out.

New York, March 20.—Rudyard Kipling read the papers, dictated some letters and saw a few friends. He spoke of getting out soon.

## MOBBED BY MEXICANS.

Exciting Experience of American Health Officers.

### SMALLPOX PATIENTS FREED.

Attacked In the Streets by a Multitude of Greasers Armed With Guns, Stones and Clubs—Garrison Troops Called Out.

Laredo, Tex., March 20.—The work of moving smallpox patients to the pest house under direction of State Health Officer Blunt was interrupted here.

After 10 had been removed the officers encountered a mob of 300 Mexicans who menaced them in such a manner that the chief of police was telephoned for. Marshal Barthelow and Assistant Marshal Idar hurried to the scene, and when they attempted to arrest the leaders of the disturbers, they were assaulted with stones and fired upon. Idar was knocked down and severely beaten about the head before he could be rescued. One of the rioters was shot, but aided by his friends, managed to escape. About 20 shots were fired, a dozen arrests made and the mob dispersed.

The health officers resumed their work, but were soon met by another mob of 500 or 600 Mexicans, many of them armed. As they could not contend with this force the health officers desisted and Dr. Blunt opened telegraphic communication with Governor Sayres. As a result he was instructed to call on the United States military authorities at Fort McIntosh for assistance. The Mexicans are much excited and express contempt for the negro United States soldiers.

#### Coal Mines Ordered Sold.

Chicago, March 20.—The final order of sale in the case of H. W. Putnam and C. J. Hall, trustees, against the Pennsylvania and Ohio Fuel company and Turney and Jones company, will be entered by Judge Grosscup in the United States circuit court Monday. The sale will include the mines near Columbus, O., owned by the Turney and Jones company, which are said to be valued at \$250,000, as well as the docks of the other defendant company at Duluth, Minn., and Ashland and Ashland and Manitowoc, Wis., of which the upset price is said to be \$118,000. April 1 is now named as the date of sale for the docks and the mines will be sold as soon as possible after that date.

#### War Balloonist Succumbs.

Boston, March 20.—Thomas Carroll Boone, the telegraph operator in the war balloon in the operations before Santiago, died at the Massachusetts general hospital, as the result of an operation on a wound received in the fall of the balloon after it had been shot to pieces. Boone, with two government officers, performed heroic work in the great air ship, which was a target for the Spanish gunners, until it fell into the trees and threw the men out. Boone was caught in the drag anchor and was fearfully hurt.

#### Death of James Patterson.

Cincinnati, March 20.—James Patterson died from the effects of the shots from the revolver of Joe Depew. Jimmie was very game to the last. A few minutes before he died one of the doctors that was attending Mr. Patterson told him that he was rallying, and the dying man, with the wit and gameness for which he was ever noted, replied: "Yes. I'm rallying for Warsaw pike." The point of the remark will be understood when it is stated that the burying ground is on Warsaw pike.

#### Standard Oil Hearing.

New York, March 20.—The hearing in the case of the attorney general of Ohio against the Standard Oil company was continued here, with John D. Archbold of the Standard Oil company on the stand. Mr. Archbold, replying to Mr. Monnett, said the Standard Oil company of Ohio is carrying out the order of the Ohio court to withdraw from the Standard Oil trust as speedily as possible.

#### Deadly Cyclone.

Waynesboro, Ga., March 20.—A cyclone passed over Burke county at an early morning hour. In the vicinity of Waynesboro four people were killed. Several houses were demolished and much damage done. At Edwardsville, Ala., the family of W. H. Lewis, consisting of his wife and eight children, was killed.

#### Sherman a Sick Man.

Kingston, Jamaica, March 20.—The American line steamer Paris, with the party of Americans touring in West Indian waters, arrived here. John Sherman is steadily improving, though he is still a very sick man and cannot with safety be transferred to the United States cruiser Chicago.

### AMERICAN FORCES

In the Philippines to Be Reorganized Into Two Divisions.

Manilla, March 20.—The entire American forces has been reorganized, two divisions of three brigades each being formed.

General Lawton assumed command of the First, which consists of the Washington, North Dakota and California volunteers, under General King; six troops of the Fourth cavalry, the Fourteenth regulars, the Idaho volunteers and a battalion of the Iowa troops, under General Owenshine; the Third and Twenty-second regular infantry and the Oregon regiment, under General Wheaton, and Dyer's and Hawthorne's light batteries.

General MacArthur's division consists of two batteries of the Third artillery, the Kansas and Montana volunteers, under General H. G. Otis; the Colorado, Nebraska and South Dakota regiments, and six companies of the Pennsylvanians, under General Hale; the Fourth and Seventeenth regulars, the Minnesota and Wyoming volunteers and the Utah artillery.

A separate brigade will be assigned to provost guard duty, consisting of the Twentieth and eighth companies of the Twenty-third regular infantry.

General Anderson, now in command of the First division of the Eighth army corps, will return to the United States, in accordance with the order of Jan. 24.

#### Snow In Yellowstone Park.

Washington, March 20.—Captain Erwin, acting superintendent of the Yellowstone National park, has reported to the interior department that the unprecedented fall of snow in the park this year will unquestionably lead to the death of very many antelope, deer and elk before the winter is over. In places in the park snow is over 12 feet in depth, and is firmly crusted everywhere. This condition of affairs, it is expected, probably will last all month, and perhaps next. A small appropriation from the park revenue for buying hay is asked.

#### Must Hold the Dynamite.

Pretoria, S. A., March 20.—President Kruger in an important speech, emphasized the necessity of the state retaining the dynamite monopoly, because, as he argued, the South African republic being an inland state, in the event of trouble with any of the powers, its supplies of explosives might otherwise be suddenly cut off. "Where should we be then?" he exclaimed. He announced his intention to modify the mining laws and to reduce the period entitling an applicant to full burghership from 14 to nine years' residence.

#### Spain Will Protest.

Madrid, March 20.—Senor Silvela, premier and minister of foreign affairs, had a conference with the French ambassador regarding the liberation of Spanish prisoners in the hands of the Filipinos. Spain, it is reported, has determined to protest to the civilized world against the attitude of the Americans in hindering the efforts of General Rios, Spanish commander in the Philippines, to liberate the prisoners. The government will demand a credit for the payment of the interest on the Cuban debt.

#### Cincinnati's Victims.

Cincinnati, March 20.—The body of Mrs. John Gibson arrived here and was met by her neighbors. It is thought now that Mrs. Gibson was not the only one from Cincinnati that was lost in the Windsor hotel fire at New York. Harry W. Loree, formerly of this city, who was employed as a key and mail clerk in the doomed hotel, has not been heard of since the fire.

#### Alger's Proposed Trip.

Washington, March 20.—Secretary Alger returned to Washington from his brief visit to Boston and Montreal. He said he expected to leave Savannah Thursday for a trip to Cuba. He has never been to Cuba and takes the trip both to familiarize himself with the condition there and to get a brief respite from official duties.

#### Domestic Tragedy.

Chicago, March 20.—Charles L. Backman, an engraver, shot and mortally wounded his wife. He then sent a bullet into his own breast, dying almost instantly. Backman and his wife had been separated for some time. A quarrel resulting from Mrs. Backman's refusal to live with her husband culminated in the shooting.

#### A Clumsy Invention.

Paris, March 20.—The Temps publishes an interview with Baron von Mohrenheim, former Russian ambassador to France, who now resides at Pau, in which he denounces as a "clumsy invention" the story that he is the real culprit who sold both Russian and French military secrets to the German government.

#### Death of an Ex-Senator.

Augusta, Ga., March 20.—Ex-Senator Patrick Walsh is dead.

## AMONG SMOKING RUINS

Workmen Diligently Searching For Bodies of the Dead.

### TOO HOT FOR MUCH HEADWAY

They Are Handicapped by Dense Smoke and Occasionally Driven Back by Bursts of Flame—Missing Turning Up Safe.

New York, March 20.—More than 200 men are at work among the debris and smoldering ruins of the Windsor hotel searching for the bodies of those who perished in the flames and to recover any valuables that might have escaped the ravages of the fire.

The efforts of the searchers are futile, however, as the ruins are too hot to permit much progress, and the smoke arising from the burning material was rendered more dense by the dampness of the atmosphere. At intervals flames burst forth from the burning embers and drove back the workmen.

Work was begun to demolish the fragmentary portions of walls on the east and north sides of the burned building and later the number of workers was reinforced, and the work of removing the rubbish pushed as vigorously as was practicable. Two chimneys, each 85 feet high, were dynamited. The explosion wrecked a number of plate glass windows and doors in nearby residences.

The wind blew over a section of a six story wall. It crashed through the roof of the neighboring dwelling, but no one was hurt. A large force of men are at work on what was the main entrance to the hotel. It was expected that bodies would first be found there. A large amount of small articles, principally the personal property of guests, was found.

The hospital reports as to the injured are most favorable. Most of the patients are improving. Some of them were able to leave the hospitals and others were discharged.

A number of persons reported missing have turned up safe. Among these are Archibald Claverling Gunter, the author, and Actor Haworth. From the best information obtainable, 16 persons are known to be dead, 55 injured and about 50 missing. A thorough search of the ruins is necessary to ascertain the complete list of casualties.

A. P. Demorest called at a police station and reported that he had a small safe filled with jewels valued at \$10,000 in the ruins of the fire. He stated that during the fire he saw three men running about in the smoke and going into rooms.

Thomas Cleary called on Inspector Harley and stated that he assisted a woman from the hotel, whom he afterwards ascertained was Mrs. Abner McKinley. He took her to the street and put her in a cab. Mrs. McKinley told him that she had dropped a bag containing some jewelry. He ran back and got the bag and gave it to Mrs. McKinley and she drove off. Inspector Harley held Cleary in order to verify the story.

#### Given Up For Lost.

Baltimore, March 20.—The relatives and friends of Miss Dora Hoffman of this city, who was registered at the Windsor hotel on the day of the fire and who has since been missing, have abandoned all hope and given her up for lost.

#### Colored Boy's Devilish Deed.

Upper Marlboro, Md., March 20.—Mary A. Clarke, 52, was beaten to death and her sister, Annie Clarke, 45, was fatally hurt at Bowie, Md., a village near this place, by John Berry, 15, a negro boy, who is in jail for the crime. The deed was a ferocious one, the defenseless women being surprised by the boy and literally beaten to a jelly with a club. Miss Annie Clarke saved herself from instant death by promising to give the boy \$100 and pledging herself not to betray him if he spared her life. The murderer was taken to Baltimore to avert a lynching.

#### Fatal Freight Wreck.

Roanoke, Va., March 20.—A fatal wreck occurred on the Norfolk and Western railroad at Ada, killing Fireman Van Landingham of this city and a brakeman named E. A. Graham. A tramp was also killed. Several trainmen were more or less injured. Three freight trains were wrecked. All were coming east. The first train had stopped. The second broke in two and the sections in their flight down the mountainside crashed into the first train. They were soon followed by the third, which had not been flagged.

Sacramento, Cal., March 20.—The California legislature adjourned sine die without electing a United States senator to succeed Stephen M. White, term expired.

## DEMOCRATIC STATE CONVENTION.

At a meeting held by the Democratic State Executive Committee in the city of Lexington on March 18th, 1899, it was ordered that a State convention be held in Louisville on Wednesday, June 21st, 1899, for the purpose of nominating Democratic candidates for State officers to be voted for November 7th, 1899, the convention to be called to order at 11 o'clock a. m.

Delegates to said State convention shall be chosen at county mass conventions to be held at the various county court houses in counties having but one legislative district, of which due notice shall be given by the various County Committees. In counties having more than one legislative district there shall be a convention for each legislative district to be held at some convenient point to be indicated by the Chairman of the Legislative District Committee, who shall advertise in the local papers the location for said convention at least ten days prior to the date fixed by this committee. Said county and legislative district conventions shall be held at 2 o'clock p. m., standard time, on June 17th, 1899. Said conventions shall be called to order by the Chairman of the respective County or Legislative District Committees.

The basis of representation of each county to the said State convention shall be one delegate for each 200 votes and fraction of 100 or more votes cast for the head of the Democratic Electoral ticket in the Presidential election in 1896, provided that each county shall have at least one delegate vote. All known Democrats and others who supported W. J. Bryan for President and those who pledge themselves to support the nominees of said State convention shall be entitled to participate in the county or legislative district conventions.

P. P. JOHNSON, Chairman.  
 R. Owen Cochran, Secretary.

## BIG GROWTH.

Figuring on What the Next Census Will Show—Uncle Sam's Getting There Fast.

[Lexington Leader.]

In estimating the population as of June, 1900, when the census will be taken, we have figures brought almost up to date. From the Governors, or other high official sources in each of the states and territories, the St. Louis Post-Dispatch secured at the close of 1898 an estimate of the population of each upon January 1, 1899. As only a year and a half will elapse before the taking of the census, it is not unreasonable to assume that the rate of growth shown since 1890 will continue during this brief remaining period. On January 1st last our population, according to these estimates, was 77,983,363. This includes Alaska and Indian Territory, but not Hawaii, Puerto Rico or the Philippines. Making the proportionate increase, we get 80,256,082 as the grand total for the United States proper in June, 1899.

The population of Hawaii is estimated at 110,000, based on a census in 1897; that of Puerto Rico at 900,000, and that of the Philippines at 8,000,000, both of the latter estimates being largely guesswork. Add these, and we have the "imperial" total of 89,266,082.

In a decade Uncle Sam will have grown from 62,831,900 (census of 1900) to 82,266,082, about 40 per cent. Disregarding the "colonies," he will have grown 17,424,182—nearly 30 per cent.

Our greatest rival in wealth is Great Britain. Minshall estimates that in 1888 Great Britain was worth about \$46,000,000,000.

Of railroads, we had in 1800, of course, none. In 1890 there were in operation 163,420 miles of railroad, according to Poor's Mutual. In 1897 there were 182,919 miles. Assuming the same rate of increase, there will be in 1900 191,274 miles. This increase is by no means in proportion to the growth in wealth, but is substantial and healthy.

Perhaps the biggest surprises waiting for us in the twelfth census will be in the relative growth in the separate states and the rearrangement of the list.

## Mrs. Alexander Rader Meets With a Serious Accident.

Mrs. Alexander Rader, mother of Mrs. William McClelland of the county, had the misfortune to fall last Saturday and fracture one of her hips. The accident is a most serious one for a person of her age; she is in her eighty-third year.

## No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and ill-run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

Use Ray's Eline for chapped hands.

## PREFERRED STOCKHOLDERS

Entitled to no Preference in Winding Up the Affairs of a Building Association.

FRANKFORT, Ky., March 18.—The Court of Appeals to-day, in an opinion by Chief Justice Hazelrigg, the whole court sitting, held that the preferred stock of a building and loan association is not entitled to preference over the common stock, and that all stockholders, indiscriminately, share equally in the distribution of the assets of such associations, in the hands of an assignee, in proportion to the amounts paid by them respectively on their stock.

The decision was handed down in the case of J. K. Sumrall and others against the Commercial Building Trust's assignee and others, appealed from the Jefferson Common Pleas Court, and is an affirmation of the opinion of Judge Emmet Field of that court. The action grew out of the assignment, in June, 1897, of the Commercial Building Trust to the Columbia Finance and Trust Company, of Louisville, and the question was presented in a suit brought for a settlement of the estate, and the lower court held as above.

In affirming the judgment Judge Hazelrigg said: "We fully concur in the Chancellor's judgment denying any preference to the so-called preferred over the common stockholders in the distribution of the assets of the association. The suggestion that the appellees have not in fact paid anything into the concern on their stock is guarded against in the orders given in the lower court by requiring proof of all claims in the usual way before the Master Commissioner. The judgment is affirmed."

## THE DISPATCH WON.

The Despicable Efforts of Gangsters to Throw Silver Organ into Receiver's Hands Fail.

LOUISVILLE, Ky., March 18.—The decision of Judge Shackelford Miller in the petition for a receiver for the Dispatch Publishing Company was handed down to-day.

The demurrers to the petition for a receiver were sustained, general and special.

He also fined the attorneys for the plaintiff, Bennett H. Young, W. A. Suduth, Clayton Blakey and Henry Watson, and Stenographer Clarence Walker \$5 each for contempt of court for taking depositions contrary to the order of the court.

He sustained the demurrer of President Allen R. Carter to the ten general grounds on which a receiver was asked. The action of Stenographer Clarence Walker in fining President Carter \$5 and sending him to jail for twenty-four hours for refusing to give certain testimony was declared unwarranted and the order vacated.

## Against Trusts.

I favor the enactment of a comprehensive and stringent anti-trust law, such as the enactment contemplated by the bill offered by Hon. B. W. Bradburn, of Bowling Green, at the last session of the General Assembly. That bill passed the House of Representatives, but failed in the Senate, where the solid Republican vote was cast against it.

Under such a law the tobacco trust and all other similar combinations could be annihilated, as they ought to be. The low price of tobacco—and Kentucky produces about one-half of all the tobacco grown in the United States—is due, in large part, to the operations of the tobacco trust.

I voted for the Bradburn bill and also for the anti-trust law now upon the statute book.—Extract from Senator Goebel's Lebanon Speech.

## A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard street, Philadelphia, Pa., when she found that Dr. King's New Discovery for Consumption had cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this royal cure: "It soon removed the pain in my chest and I now can sleep soundly, something I can scarcely remember doing before. I feel, like sounding its praises throughout the universe." So will every one who tries Dr. King's New Discovery for any trouble of the throat, chest or lungs. Price 50c. and \$1. Trial bottles free at J. J. Wood & Son's drug store. Every bottle guaranteed.

MRS. MAGGIE ARCHDEACON, of Mayslick, was summoned to Cincinnati Saturday by a telegram announcing the serious injury of her son Joseph. He has been attending school at St. Xavier's Academy, and accidentally fell from stair-railing. The extent of his injuries was not learned.

JOHN LEWIS, of Lewis County, died a few days ago. A special says: "He was familiarly known as 'Big John' Lewis, and in his younger days was noted for his great strength, and it is said that in hundreds of fistfights he 'never was whipped.' For over fifteen years past he has been blind."

CORPORAL GEORGE WORMALD, of Bellevue, of the Sixth Immunes, recently stationed in Puerto Rico, arrived home Saturday morning. Mr. Wormald brought a large number of souvenirs which he collected in Uncle Sam's newly acquired isle, and among the number is a large Spanish flag, eight machetes and several Puerto Rican canes, which he will distribute among his friends.

## "Woman" Instead of "Lady."

[New York Tribune.]

The decline in the popularity of the term "lady" has been remarked by many during the last eight or ten years, but the inclination to substitute the word "woman" for it has received an added impetus of late. In Syracuse, N. Y., the February meeting of the "Lady Principals' Association" has, by amending the constitution, changed the name to Woman Principals' Association. All women active in the work of the day, as carried on by members of their sex, prefer to be known under the broader term of a dignified and substantial meaning.

# Carpetings for Spring.

We have the exclusive control here of a large manufacturer's output, embracing fully one hundred different patterns in Tapestry, Brussels, Moquettes, Velvets and Ingrain. After long and careful consideration we have adopted this method of Carpet selling for two reasons. First, we can give you a selection in point of quantity, quality and artistic designing the Cincinnati markets cannot rival, an impossibility under other conditions, as we have not the room to carry such an enormous stock as our selection line represents. Secondly, we can sell cheaper, much cheaper, than under the old method, as the factory carries our stock for us, and we need keep no reckoning of profit-clipping, remnants and unpopular patterns. Entering upon this different arrangement in our Carpet business there are three points in which we determine to excel: Private Patterns, High Grade Goods at Low Prices, Carpet Making. Think over what this means. First, you need not cover your floor with hackneyed patterns. On the contrary exclusive and fresh designs are at your disposal. Second, you need pay no more for the best than poorer grades cost elsewhere. Third, when the Carpet-Making is entrusted to us, we will have all Carpets machine-stitched; Bordered Carpets will be faultlessly mitered and sized. No ripped seams, no puckered corners, the cost no more. We solicit your patronage on this basis. Orders can be filled within twenty-four hours. Come in and look over our line.

### BEHIND THE BARS.

**William Pell Jailed Sunday Morning on the Charge of Forging a Check on Henry Haugaboo.**

William Pell, whose home is the vicinity of Fern Leaf, was arrested Sunday morning by Constable William Wells, and jailed on the charge of forging a check for \$25 on Mr. Henry Haugaboo, one of his neighbors.

The alleged forgery was committed last Thursday. Late that evening Pell entered Mr. M. Davis' clothing store on Market street and purchased some goods, the bill amounting to \$3.50. He tendered the check for \$25 on Mr. Haugaboo in payment, and asked to be given the balance in change. He was accommodated, and received the goods and \$21.50 in cash. The next day it was discovered that the check was a forgery, and the case was placed in the hands of officers.

Pell had gone to Cincinnati, and Constable Dawson visited that city, but was unable to overhaul him, although he was close on his tracks at several houses visited.

Pell returned Sunday morning on the Pomeroy packet, W. F. Nisbet, and was captured by Constable Wells shortly after the steamer arrived. He had only \$1.15 when captured.

The accused is in jail in default of \$300 bail and will be given a hearing tomorrow before Squire Grant. He acknowledged the forgery to Constable Wells.

### Officers Elected.

## The World's Best

Does not come to us unsought. We hunt after it, and only makers of the highest grade of Clothing and Shoes get our orders.

If you have ever worn a Suit or Overcoat from our house, "you know;" if you have not, try us this spring.

The youngsters are commonly the first in the family that require a new season's outfit. We claim distinctive merit for our line of Children's and Boys' Clothing. You will find prices so modest that it may lead to doubting quality, but we guarantee both.

Our Vestee Suits, ranging from \$1.25 to \$3.75, are simply elegant. Our Double-Breasted Jacket and Pants Suits, ages 8 to 15, ranging in prices from \$1.50 to \$4.75, we believe to be the best ever shown for the prices. You will favor yourself and us too by comparing them with those of other houses.

## THE PROPER THINGS

for this Spring's good dressers are lightish colored checks and modest plaids, but serges principally in dark blue and black will contend for supremacy, and justly, too. Our Serge Suits (and we have them in all styles) will be found distinctively a "gentleman's" Suit of Clothes.

Knowing that there will be a great demand for Spring Top Coats, we secured a magnificent line of them. We cannot describe them on paper. Come in and look at them.

### COUNTRY TELEPHONES.

The Time Coming When the Isolation of the Farmers Will be Mitigated.

The time is coming very rapidly, says the Scientific American, when the isolation of the farmer will become mitigated, owing to "neighborhood telephone lines," by means of which they can communicate with each other without reference to the condition of the roads or press of work.

A local paper of an inland city in New York State describes an interesting line where the subscribers constructed the line, furnishing the tools and doing the work themselves, the expense of wire, instruments, etc., was equally divided among them, and the cost was only about \$14 per share.

The line, of course, is free to subscribers, but others can make use of it by the payment of a small fee. At present there are ten subscribers to the line.

### Goebel Campaigning.

AUGUSTA, KY., March 18.—Hon. William Goebel was introduced to the Democrats of Bracken County by Hon. Joseph Felix, at Brooksville, to-day. There was an immense crowd present, notwithstanding a heavy downpour of rain. For nearly two hours Senator Goebel held the close attention of this large audience.

A YEAR ago many farmers and gardeners planted early potatoes in February, and they were up at this time last season. Very few gardeners have been able to do any work at all so far this spring.

### River News.

The Levana mill and boat yards will start up to-day.

The Queen City will pass down this evening and Urania to-night.

The pilots on the Urania report a sunken barge in the channel at the head of Charleston bar. It lays just below the Government light, and passing steamers must run to the Ohio side of it.

### Don't Want Them Indicted.

LANCASTER, Ky., March 17.—Citizens are making strenuous efforts to prevent insurance companies from being indicted. A petition is in circulation asking the grand jury not to indict, setting forth that this place has such poor facilities for fighting fire that should the insurance companies be indicted they would withdraw from the county, leaving the town without protection.

## NORTHWESTERN MUTUAL

Life Insurance Company,  
OF MILWAUKEE, WIS.

Largest Purely American Company.

Official statistics show that the Northwestern's COMBINED DEATH AND EXPENSE RATE is much below that of all the other leading companies. The assets are \$128 for every \$100 liability. With such conservative methods of management and such enormous resources, one can readily understand why the Northwestern can and does pay LARGER RETURNS TO THE POLICY-HOLDER. As a perfect guarantee of good faith in this claim, the local representatives of this company have this day deposited in Mitchell, Finch & Co.'s Bank two hundred dollars (\$200), together with records of twenty-five policies held by prominent citizens of Mason County and Kentucky, on men of various ages, and results in no wise different from all Northwestern policies of same kind. It is hereby agreed that the said deposit of

\$200

Shall Go to the Washington Fire Co.,

of the City of Maysville, if any Life Insurance Company in the United States will produce in comparison a single policy record of similar kind showing as good results as any one of the policies referred to above. By similar policies we mean policies issued the same year, on same plan, to men of same age, and dividends used in same way. If this challenge be accepted it must be on the following conditions:

First—It must be accepted on or before April 10, 1899.  
Second—The statement of the policy furnished by the competing agent must be certified as correct by Actuary and Secretary of the company that issued it, and  
Third—The question as to which policy shows the largest amount of dividends, after premium differences have been adjusted, is to be decided by three gentlemen, one to be selected by the agent accepting the challenge, one by the local representative of the Northwestern Life Insurance Company, and they to select the third.

## MISS MARTHA JOHNSON.

Her Maysville Friends Saddened by the News of Her Sudden Death at Liberty, Mo.

[Mexico, Mo., Ledger, March 17.]

Miss Mattie Johnson, daughter of ex-Mayor B. C. Johnson of this city, died at Liberty, Mo., early Wednesday morning, March 15th. At 9 o'clock Mr. J. R. Luckie received a telegram stating "Mattie is dead; will write you later when to meet us at the depot."

Miss Martha Woodward Johnson and Miss Maude Wallace went to Liberty two weeks ago on a visit to Miss Minnie Williams. The young folks had a royal good time and Miss Martha and Miss Maude were expected home to-day. On Sunday Miss Martha was taken ill and Sunday night became unconscious and remained so until she died. Her father reached her bedside Monday and her mother Tuesday. Everything possible was done, but the young life could not be saved.

A large concourse of friends met Mr. and Mrs. B. C. Johnson, who arrived from Liberty with the remains of their daughter, Miss Martha, at 3:18 p. m. yesterday.

Miss Johnson was born April 12, 1876, and died March 15, 1899. Death resulted from a severe case of grip, complicated with kidney trouble.

The funeral will take place from the family residence on South Jefferson street at 2 o'clock this afternoon, and the services will be conducted by Elders Dutcher and Robbins.

Miss Johnson spent several weeks in Maysville last summer, a guest of Mrs. M. C. Russell, and won many warm friends while here, who learn with sincere sorrow of her death.

With Herschell's Remains.

Portsmouth, Eng., March 20.—The British cruiser Talbot, with the body of Baron Herschell on board, has arrived here.

## ENGAGEMENT EXTRAORDINARY.

The Coming of the Scalchi Operatic Company an Event That Should Not Be Missed.

The first appearance in this city of the world's famous and greatest contralto, Mme. Sofia Scalchi, ought to draw a large and representative audience to the new opera house next Saturday night.

The lover of music who is absent will undoubtedly miss one of the finest musical entertainments given here in many years and one not likely to be duplicated in the near future. Scalchi's name is a household word in the musical centres of Europe and America. During the past fifteen years she has been associated with all the most famous singers of the period and at one time or another has been the principal contralto of the principal operatic organizations of the world. At the close of her present tour she goes to St. Petersburg to join the Royal Opera Company and will not sing in this country again.

Associated with Scalchi is the renowned baritone, Signor Alberti, and other operatic stars of note. It will please the public to know that Scalchi will be heard in her most famous role, "Azucena," the old gypsy in Verdi's ever popular Il Trovatore. The entire fourth act will be presented in costume, with scenery, etc., and will be preceded by a grand operatic concert in which all the artists will take part.

Reserved seats on sale at Nelson's Wednesday morning at 9 o'clock.

John Tuttle's Rash Act.

New York, March 20.—John Tuttle, a laborer, living at Annsville, near Peekskill, N. Y., went to his home in a drunken condition and was reproved by his wife. Her scolding enraged him so that he struck her on the head with a hammer, inflicting a dangerous wound. Believing that he had killed her, Tuttle went into the woods near his house and hanged himself.

The two most critical times in a woman's life are the times which make the girl a woman, and the woman a mother. At these times, Dr. Pierce's Favorite Prescription is of incalculable value. It strengthens and invigorates the organs distinctly feminine, promotes regularity of the functions, allays irritation and inflammation, checks unnatural, exhausting drains, and puts the whole delicate organism into perfect condition. Almost all the ills of womanhood are traceable to some form of what is known as "female complaint." There are not three cases in a hundred of woman's peculiar diseases that Dr. Pierce's Favorite Prescription will not cure.

The Cincinnati Leaf Tobacco Warehouse Company, in its circular for the week, has the following:

The attendance of buyers upon the market the past week has been unusually large, all the manufacturers being represented, with the addition of some foreign buyers, and this, in connection with the active bidding of the speculators, caused us to have a better market, with large offerings. There was a better demand for the better grades of leaf and quotations can be advanced some on these grades. Mediums continued about the same, while low grades were strong most of the time; there was some fluctuation and prices varied fully one-half cent on these grades, but, as a whole, the market can be quoted about the same only on the best grades.

Very little old tobacco is being sold, as the stock on hand is so small that there are only occasional hogsheads offered, but prices remain very firm on all sweet tobacco, some very fancy old selling as high as 24 cents.

Reports from the country are that several of the local buyers are picking up a few crops at reasonable prices and taking the chances of the future market. There is considerable discussion over the future, though the general opinion prevails that we will continue at about the prices established, and there will be very little change in prices unless something should occur to the growth of the coming crop.

Receipts are quite liberal, and we expect good sales the coming week.
